

# ED ECMO

If you have a patient who meets the following criteria:

- $\leq 65$  y/o
- No major comorbidities (ESRD, Cirrhosis, High-grade cancer. Severe Chronic Pulmonary Disease)
- **Witnessed Arrest**
- No-Flow (time without CPR) time < 5 minutes
- Continuous compressions since that time
- V-fib or V-tach as initial rhythm
- PEA only if the patient was a witnessed code in the Emergency Department
- Time now < 60 minutes from the time of last arrest

**Call an ED ECMO Alert as soon as the patient arrives**

**by dialing x41911**

**and asking for an ED  
ECMO Alert**
