

EDECMO Alert

ED Staff asks for an ECPR/EDECMO Alert Activation
by dialing 41911:

Step I

- Call Dr. Scott Weingart at

(631) 638-6933 (this # only for ECMO activations)

- Just say that this is an EDECMO case, he will not ask for further information and will proceed directly to the hospital

Step II

- Look up on the on-call switchboard for which cardiothoracic surgery attending is on call.
- Try calling on their cell phone:

Chikwe, Joanna

917-297-5714

Tannous, Henry

646-761-9784

McLarty, Allison

631-413-2698

Bilfinger, Thomas

631-358-6111

Tak, Vinay

631-260-6534

Seifert, Frank

631-358-6172

- They will likely want further information before they come in. Place them on hold and come in to the ED Crit Care Area. Tell the ED Attending running the arrest that CT Surg is on the phone. They will either talk to the CT surgeon themselves or assign one of their staff to do so.
- If the CT surgeon doesn't answer their cell phone, page the CT surgeon using the on-call switchboard
